RE: Notice of preliminary determination in the antidumping duty investigation of grain-oriented electrical steel from the People's Republic of China (A-570-994)

1. On 05/12/2014, Commerce published in the Federal Register (79 FR 26936) its preliminary determination of sales at less than fair value and the postponement of the final determination in the antidumping duty investigation of grain-oriented electrical steel from People's Republic of China.

2. The scope of this investigation covers GOES. GOES is a flat-rolled alloy steel product containing by weight at least 0.6 percent but not more than 6 percent of silicon, not more than 0.08 percent of carbon, not more than 1.0 percent of aluminum, and no other element in an amount that would give the steel the characteristics of another alloy steel, in coils or in straight lengths. The GOES that is subject to this investigation is currently classifiable under subheadings 7225.11.0000, 7226.11.1000, 7226.11.9030, and 7226.11.9060 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these investigations is dispositive. Excluded are flat-rolled products not in coils that, prior to importation into the United States, have been cut to a shape and undergone all punching, coating, or other operations necessary for classification in Chapter 85 of the HTSUS as a transformer part (i.e., laminations).

3. This investigation has been assigned investigation number A-570-994.

4. For imports of grain-oriented electrical steel from People's Republic of China, CBP shall suspend liquidation of such shipments entered, or withdrawn from warehouse, for consumption on or after 05/12/2014. Effective 05/12/2014, CBP shall require, for entries of grain-oriented electrical steel from People's Republic of China from the exporter listed below, a cash deposit equal to the antidumping duty cash deposit shown below:

Exporter: PRC-Wide Entity

Case number: A-570-994-000

Cash deposit rate: 159.21%

5. For all other entries of grain-oriented electrical steel from People's Republic of China, the following cash deposit instructions apply:

A. For all PRC exporters of grain-oriented electrical steel from People's Republic of China which have not received their own rate, the cash deposit rate will be the PRC-wide rate.

B. For all non-PRC exporters of grain-oriented electrical steel from People's Republic of China which have not received their own rate, the cash deposit rate will be the rate applicable to the exporter/producer combinations that supplied that non-PRC exporter.

6. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by OVI:EU.)

7. There are no restrictions on the release of this information.
